ENGLISH

On the 12th August we celebrated [International Youth Day](#).

Youths are the future of our country and we want to help channel their energy, vitality and inquisitive minds into productive and fulfilling pursuits.

In Tanzania youth unemployment is growing, which at best leads to idleness and lack of self-respect; and at worst to undesirable activities like theft, fighting and drug abuse.

We have designed this training day to teach our young people how to recognise and pursue employment opportunities in Tanzania’s important tourism sector. The training will cover both theory and practical exercises, which past students tell us are of most value.

The day involves a 26 km round trip from Bukoba town to Maruku Paradise Beach. Tea and lunch are provided and when the training is over, participants will have time to enjoy the beautiful beach, local walks and other visitor facilities.
